The Respondent was heard on 22-03-2010. The delay had occurred as the public authority had waited for an administrative action to be completed before giving the reply. Completion of an administrative action was not contemplated under the RTI Act and, information as available with the public authority on the date of request only was to be provided. Taking an extreme lenient view in the matter, further proceedings initiated against the Respondent u/s 20 of the RTI Act are dropped.
